

Venture Capital & dream.jobs benefits

Boost hiring for your startups with
AI-powered automated recruitment.

Why dream.jobs?

[dream.jobs](#) can help you to

1. to streamline the recruitment process
2. save time and resources
3. access a large pool of candidates

How it works?

Automates many of the manual tasks involved in recruiting, such as:

- posting job ads
- screening resumes
- and scheduling interviews

allowing the venture capital company & it`s startups to focus on evaluating the best candidates

Additionally, [dream.jobs](#) can provide access to a wider range of potential candidates and improve the overall efficiency and effectiveness of the hiring process.

Case Study – their.eu (1/3)

New career page:

- focus on simple information about the company and industry
- Humanised through contacts to key recruitment people
- Upload CV option => enough to automatically match it with the job position using the Dream.Jobs AI powered solutions

their.

ICT.

Our services reflect our values and vision – to drive the digital economy forward. We have stable ICT companies in our portfolio, we provide comprehensive cyber services including IT security or outsourcing, and we implement new development projects, such as the provision of private 5G networks.

[Vacancies in ICT](#)

Industry.

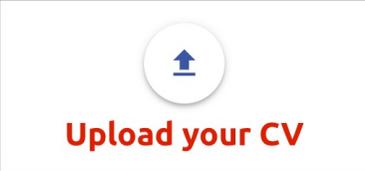

Within the industrial part of the group, we combine the tradition of family businesses with innovations. We focus on companies from the railway industry and the production of rolling stock components, as well as hydrogen technologies. We are looking for ways for automation, robotization and digitization to fulfill the vision of Industry 4.0.

Perfect Integration with existing
recruitment software

OR

Dream.Jobs can offer you full
package including recruitment
process software

The image displays a promotional graphic for the integration of ATS recruitis.io with the recruitment software their.eu. The top section shows the website header with contact information for two HR specialists: Frederika Schwarzová (Senior Recruiter, Tel: 601 294 880) and Sára Němcová (HR Specialist, Tel: 601 294 883). The text 'Co Vám můžeme nabídnout?' (What can we offer you?) is followed by 'spolupráce s odborníky napříč celou skupinou Thein'. The ATS recruitis.io logo is prominently displayed in green. Below this, a screenshot of the recruitment software interface is shown, featuring a candidate management table with columns for 'Hodnocení', 'Uchazeč', 'Stav', 'Kontakty', 'Přilohy', and 'Termín pohovoru'. The table lists candidates such as Sharon Stone, Angelina Jolie, Halle Berry, and Robert De Niro. A status filter is set to 'Pre-screening', and a 'Provést' button indicates 2 selected candidates. A modal window shows a recruitment process flow with stages: Noví, Ve výběru, Pre-screening, Pohovor, Vybrání, Přijetí, and Zamítnout. A tooltip for 'CV, cover letter and further attachments' is visible over the 'Přilohy' column.

Results can be shared with all of
the VCs start-up ecosystem

+

each start-up can use stand-
alone the Dream.Jobs solution
stand-alone or integrated with
the other startups in the
ecosystem

Benefits for VCs

1. All jobs / process in one place
2. AI powered = predictive and automated => further decisions can be made based on historical data
3. Easier match of multiple startups needs with the job market

Thank you!
